

## **INSTITUTE OF OCCUPATIONAL SAFETY AND HEALTH (IOSH) FOOD, DRINK & HOSPITALITY GROUP**

Through our contact with IOSH, we have been informed about a specialist IOSH working group that you may find of interest called the 'Food, Drink and Hospitality Specialist Group'.

The group was formed in July 2006 and aims to represent all food industry companies and safety practitioners regardless of size. The group's aim is to enable all who work in safety in the food, drink and hospitality industry to network and share best practice with the overall aim of reaching the 'Recipe for Safety' targets endorsed by the HSE.

### **Forthcoming Network Events**

The Food, Drink & Hospitality Specialist Group will be holding two networking events in March 2007 called: '**Design, Build and Refurbishment of Food Manufacturing Premises; The Implications for Safety**'.

We attach the programme and booking form for this event, which is open to members and non-members alike. As you will see from the programme, it is a wide ranging/covered topic, and as such it is not necessarily aimed just at food and drink companies.

If you would be interested in attending the event please feel free to contact IOSH directly using the contact details on the booking form.

For further information on the IOSH Food, Drink and Hospitality Specialist Group and their events, please visit their web site:
