

TWO MORE NEW MEMBERS

We are delighted to report that another two new companies have recently joined the Federation. They are ready meal producers **Pyrol Frozen Foods Ltd** and associates, **Modular Freezing Systems Ltd** who design and manufacture spiral freezers and can provide other freezing solutions. We convey a very warm welcome to these new members and their profiles will be featured in forthcoming Bulletins.

This continuous recruitment highlights the range of services being offered to the Federation members and to those new companies who are joining to derive the benefits. If you can recommend any more companies that we should be talking to about membership please let Graeme Day know on 01476 515302.
