

HEALTH AND SAFETY EXECUTIVE NOISE TOOLBOX TALK PACK

The Health and Safety Executive originally published the 'Noise toolbox talk pack' in 2005 and it has now been updated by the HSE to reflect changes brought about by recent noise legislation. The pack will help employers explain to their employees how to protect their hearing at work. It can be used in any workplace where noise is a problem.

The pack contains 'Notes for employers', 'Notes for trainers', and a 'Hearing protection' picture card, 15 'Protect your hearing or lose it!' pocket cards, one 'Noise at work: Advise for employers' leaflet, one 'Protect your hearing or lose it!' poster, and a CD that simulates hearing loss over a working life. As well as English, the CD includes language versions in Bengali, Gujarati, Hindi, Punjabi and Urdu.

The 'Noise toolbox talk pack' costs £10 and can be ordered via the HSE website: www.hsebooks.co.uk and quoting:
