

'SUSTAINABILITYLIVE!' EXHIBITION 2007

Economic, environmental and social sustainability really are the focus for the future of the food industry, and with this in mind, we would like to inform you all of the forthcoming Sustainability*live!* Exhibition.

Sustainability*live!* takes place at the NEC, Birmingham from 1st – 3rd May 2007 and is claimed to be the UK's largest forum for excellence and innovation in environment, water, land and energy.

As well as helping UK companies to keep up to date with changes in environmental legislation that impact on their business, our members will have access to hundreds of industry experts that can offer free advice on what they should be doing and how they can work more efficiently in relation to their **environmental compliance**. There will be also over 250 key companies under one roof that offer pollution solutions and practical advice as well as **products/services to help reduce energy consumption**.

Entry to all shows is completely free of charge and the exhibitions offer a free to attend programme of seminars and workshops designed to keep UK business environmentally compliant and most importantly, reduce costs where possible.

For further information on this exhibition visit the Sustainability*live!* web site www.sustainabilitylive.com
